**OSRAM COOL BLUE stylish and safe**

OSRAM COOL BLUE provides powerful light on the road. Its stylish bright bluish white light is almost in the same league as the light from attractive xenon lamps.

**Cool light, strong effect**

COOL BLUE produces high-contrast light similar to natural daylight and is therefore easier on the eye than the light from conventional headlights. Their bluish white light has a color temperature of up to 4,000 K, making it an attractive lamp and putting many other blue lamps firmly in the shade. COOL BLUE H7 and H4 lamps have an eye-catching design, perfect for style-conscious drivers. Behind the clear glass the silver cap blends perfectly with the reflector.

**Features at a glance**

- Modern bright bluish-white light (up to 4,000 K, similar to light from xenon lamps)
- Up to 20 % brighter than standard lamps (subjective impression)
- High-contrast illumination of the road
- Optimized design with a silver cap (H7/H4), ideal for clear-glass headlights
- Available for all front lighting functions
- For the design-conscious driver
