CC-BC 10 E

Battery Charger

Item No.: 1050821

Ident No.: 11015

Bar Code: 4006825613186

The CC-BC 10 E battery charger is a powerful automatic 12 V electronic charging device. The present charging current can be safely read via the inbuilt amperemeter. The electronic charging system limits the charging voltage to maximal 14.1 V (WU-charging curve); thus, an overcharging of the plugged battery is impossible and the charging process needs not to be controlled. Therefore, the battery charging device is especially suitable for modern, maintenance-free batteries as well as for preserving charging of sparely used batteries. The both powerful, all-insulated terminal clamps ensure optimal contact to the battery terminals at any time. The device can be safely and easily transported by the handy and stable carrying handle.

Features

- All-insulated construction
- Overload- and false poling- and short-circuit protection
- Electronic charging
- Sheet steel housing
- Carrying handle
- Built-in ammeter
- Mains cable with europe plug
- Charging leads with sturdy pole clamps
